

Inside Ideas Group UK Environmental Policy

OUR BUSINESS

Inside Ideas Group Limited and its subsidiary companies (“we”, “our” and “us”) are providers of marketing, creative and production services including strategy, creative origination, creative production, creative adaptations and versioning (including transcreation/translation), for all forms of marketing and personal communications.

In the UK, Inside Ideas Group comprises of 1,226 employees across Inside Ideas, OLIVER, Dare, Aylesworth Fleming and Adjust Your Set.

OUR POLICY

Inside Ideas Group is committed to managing environmental issues effectively across our entire value chain. This policy covers our UK operations and we are in the process of planning how to support the enactment of a global environmental policy in other countries we operate in.

We are committed to taking action to minimise our impact on the environment. The environment can also impact upon our business, and we will manage our business to minimise disruption from extreme weather and climate change.

We are also in a privileged position that as part of our client work we are able to inform, educate and motivate consumers about nature and the environment where appropriate.

With environmental issues so important to our business, we will take a strategic approach to managing environmental risks and opportunities. We aim to manage, control or influence the significant environmental impacts, risks and opportunities that arise from:

- The activities in our supply chain, including printing and logistics
- Our own operations, including business travel and commuting
- Our creative process and work with clients
- Our production process, including in-house and third-party production
- The delivery of advertising and marketing campaigns
- The impact on consumer behaviours due to our campaigns, especially those embedded in the increased sales of the goods and services of our customers.

We will:

Be environmental leaders

Our leadership team will ensure that environmental issues are managed effectively, providing the support and resources to deliver on our environmental objectives.

Maintain an effective management system

We will implement and maintain an effective environmental management system that meets the requirements of ISO 14001:2015.

Set objectives and targets

We will set objectives to improve our environmental performance and report at least annually on our progress publicly.

Protect the environmental and prevent pollution

We will work to protect the environment and avoid pollution and waste across the lifecycle of our products, services and operations.

Use our position to create positive environmental outcomes

We will take action on our sites, through our supply chain and staff actions, and in partnerships across the sector to create positive environmental outcomes.

Meet our obligations

We will comply with all applicable legislation and any voluntary and contractual obligations that we take on.

Continual improvement

We will work to improve our environmental management and performance on an ongoing basis.
